No. 2084 OF 1896.

From

THE INSPECTOR-GENERAL OF PRISONS,
Bombay Presidency;

To

THE SECRETARY TO GOVERNMENT,
Judicial Department,
Bombay.

Inspector-General of Prisons' Office,
Bombay, 17th April 1896.

SIR,

I have the honour to submit the Annual Administration Report, together with the usual statistical tables, on the Prisons and Jails in the Bombay Presidency (including the Province of Sind and Settlement of Aden), for the year 1895.

JUDICIAL.

2. The number of Prisons (District Jails) has, during the past year, been reduced by four, while the number of Central Prisons has, during the same period, been raised from two to three. The number of Subordinate Jails has remained the same. These changes have been brought about by the opening of the Ahmedabad Central Prison (second class) on the 1st January 1895, by the abolition of the Prisons (District Jails) of Ahmedabad, Kaira and Dhuliákot, and by the reduction of the Surat Prison (District Jail) to the status of a Subordinate Jail on the date above mentioned: (Government Resolution, Judicial Department No. 7918, dated 28th November 1894). The lastnamed measure has not made any addition to the number of Subordinate Jails, as it has been counterbalanced by the abolition of the Dohad Subordinate Jail: (Government Resolution, Judicial Department No. 8547, dated 22nd December 1894). On the last day of the year under report there were under the control of this Department one First Class Central Prison, two Second Class Central Prisons, thirteen Prisons (District Jails), two Extra-mural Gangs, and 28 Subordinate Jails.

General Summary.

3. From the General Summary preceding the statements in the appendix to this report, it will be observed that the total population of all classes of prisoners confined in Prisons, Jails, Civil Jails, and Lock-ups during the year under report has been 85,433 as against 75,437 in 1894—an increase of 9,996. The daily average number has been 8,382—an increase of 243 over the figures for 1894 under this head. The increases above referred to have been caused by the large number of admissions into Lock-ups. The increase as compared with the year 1894 in the number of admissions into the Lock-ups of the Town and Island of Bombay alone has amounted to 7,060. As Lock-ups are not directly administered by this Department, the propriety of including the statistics relating to such places of detention in the Annual Prisons Report has always struck me as being a debateable point. A reference on this subject has lately been made to Government, and I venture to hope that, as the result of such reference, the Lock-up statistics may be excluded from the future Annual Reports of this Department.

Statement No. I.—Number and disposal of convicts.

4. This statement shows the number of convicted prisoners confined during the past two years. Subjoined is a summary of its contents:—

	1894.			1895.		
	Males.	Females.	Total.	Males.	Females.	Total.
Number remaining on last day of previous year. { Prisons ...	6,886	207	7,093	6,660	190	6,850
{ Jails ...	221	13	234	277	11	288
Imprisoned during the year. { Prisons...	11,468	499	11,967	10,659	528	11,187
{ Jails ...	2,882	162	3,044	3,793	176	3,969
Total ... { Prisons...	18,354	706	19,060	17,319	718	18,037
{ Jails ...	3,103	175	3,278	4,070	187	4,257
Grand Total ...	21,457	881	22,338	21,389	905	22,294
Daily average Number ...	7,021	206	7,227	7,049	212	7,261

5. As compared with the year 1894 the number of convicts admitted into Prisons shows a decrease—a result which is chiefly due to the fact of the Surat Prison having been reduced to the status of a Subordinate Jail. The prisoners admitted thereto have been classified as prisoners admitted into jails, thus reducing the number of admissions under the one head indicated above and increasing it under the other.

6. The subjoined table deals with direct admissions into Prisons :—

		1894.	1895.	Increase.	Decrease.	Total Increase or decrease in each Province.
Bombay	Common Prison	2,528	2,478	...	50	—16
	House of Correction	409	443	34	...	
Deccan	Yerrowda	648	642	...	6	—117
	Nasik	565	478	...	87	
	Dhulia	667	643	...	24	
Southern Maratha Country.	Bijápur...	269	327	58	...	+148
	Deccan Gang	...	...	...	...	
	Dhárwár	275	365	90	...	
Konkan	Kárwar...	228	140	...	88	—380
	Ratnágiri	200	157	...	43	
	Thána	1,305	1,056	...	249	
Gujarat	Ahmedabad	686	1,437	751	...	+776
	Rájkot	41	66	25	...	
Sind	Karáchi	682	662	...	20	+16
	Hyderabad	1,053	967	...	86	
	Shikarpur	1,042	1,163	121	...	
	Sind Gang	...	1	1	...	
Aden	Aden	208	162	...	46	—46
	Total ...	*10,806	11,187	1,080	699	
	Increase ...			381		

* Excluding 1,161 prisoners from Kaira and Surat Jails which were abolished.

7. There has been a drop in the number of admissions into the Common Prison and an increase in the number admitted into the House of Correction—an indication that, as the latter Prison is the receiving Prison for long-term prisoners sentenced by Courts exercising jurisdiction within the limits of the City of Bombay, the sentences passed by those Courts in the year under report have been in many cases of a more substantial nature than those awarded in the preceding year. The rise in the numbers admitted into the Bijápur and Dhárwár Prisons is, no doubt, due to the dacoity disturbances in those districts. The large increase shown against the Ahmedabad Prison is mainly due to the fact that this Prison now receives the prisoners of the Kaira District. There is a large decrease in the number of admissions into the Thána Prison, for which no reason can be assigned. The decrease in the Aden Prison is stated to be due to the fact that the Arab and Somáli classes, from which the prison population of the settlement is ordinarily recruited, are now largely engaged by foreign powers as labourers in the interior of Africa, the expulsion of notorious bad characters from the settlement being also named as having contributed towards the reduction indicated.

8. The statement below shows that there has been an increase in the number of females imprisoned during the year. The number, however, is below the average yearly number of admissions during the last five years :—

	1891.	1892.	1893.	1894.	1895.
Females	771	839	724	661	704
Decrease on previous year per cent. ..	1·9	...	13·7	8·7	...

9. The statement which follows gives the number and disposal of convicted prisoners during the past two years :—

	1894.			1895.		
	Males.	Females.	Total.	Males.	Females.	Total.
Transferred to other prisons—						
To undergo sentence	3,126	95	3,221	3,310	77	3,387
For transportation beyond seas, &c.	127	7	134	106	4	110
Released on appeal	876	28	904	877	28	905
Do. on expiry of sentence ...	11,604	591	12,195	11,322	595	11,917
Do. under Remission Rules ...	1,599	52	1,651	1,830	54	1,884
Do. by order of Government on account of sickness ...	1	1	2	8	...	8
Do. on other grounds	24	...	24	8	1	9
Transported beyond seas	106	6	112	122	6	128
Transferred to lunatic asylums ...	8	...	8	4	...	4
Escaped	15	...	15	9	1	10
Executed	31	....	31	28	...	28
Died	238	2	240	220	3	223
Number remaining on 31st December	6,832	196	7,028	6,979	217	7,196
Total ...	24,587	978	25,565	24,823	986	25,809

10. The number of transfers has increased owing to work in the Khándesh District having been found for the convicts of the Deccan Gang. The number released under the Remission Rules exhibits an increase of 233, which goes to show that the benefits of the mark system are being extended. Of the eight* releases on account of sickness four were from the House of Correction, one was from the Thána Prison, one from the Ahmedabad Central Prison, and two were from the Aden Prison. Of the nine† prisoners released on other grounds three were European ex-military convicts who were released shortly before the termination of their sentences to admit of advantage being taken of a favourable opportunity of despatching them to England, two were recovered criminal lunatics, and the reasons which led to the release of the remaining four are stated in the Resolutions† marginally noted. Ten prisoners escaped from prisons and six from jails during the year as against fifteen in the previous year. Of the above sixteen prisoners ten, the figure appearing in the final column of the above table, were still

Government Resolution, Judicial Department No. 6000, dated 24th August 1895.

at large when the year closed. There have been twenty-eight executions during the year, of which six have been carried out in Subordinate Jails. There has been a decline of seventeen in the number of deaths as compared with the previous year. Of the 6,979 male and 217 female convicts remaining in confinement on the last day of the year 1895, there were in Central Prisons 3,176 males and 78 females, in Prisons (District Jails) 3,014 males and 129 females, in Extra-mural Gangs 568 males, and in Subordinate Jails 221 males and 10 females. There were 121 Burman prisoners and one (Government Resolution, Political Department, No. 4727, dated 22nd July 1892), State prisoner (Yerrowda Central Prison) in confinement on the 31st December 1895.

Statement No. II.—Religion, age, education of convicts and previous occupation.

11. The figures dealing with the classification according to religion, age, &c., call for no special comment. The number of juveniles admitted during the year has been 77 males and 31 females. This last number shows an increase of eleven over the figures for the year 1894. Of the 108 juvenile prisoners admitted, (of whom 4 had been previously convicted), 68 were sentenced to terms of imprisonment for less than one month, 36 to terms above one and not exceeding six months, and 4 were transferred to the Reformatory School at Yerrowda under Section 8 of the Reformatory Schools' Act. The figures in connection with the education of convicts show that the number of those "able to read and write" admitted into prisons continues to increase.

12. Of the statistics appearing in Statement II. regarding the previous occupation of male convicts, a summary is given in the table which appears below, from which it will be observed that there has been a slight increase in the percentage under the first, second, fourth and last heads, while there has been a decrease under the remaining heads:—

	1894.				1895.			
	Census (1891).	Number admitted during the year.	Percentage of number admitted to free Population.	Percentage to Total Prisoners admitted.	Census (1891).	Number admitted during the year.	Percentage of number admitted to free Population.	Percentage to Total Prisoners admitted.
Employed under Government or Municipal or other local authorities	378,041	475	0·126	3·3	378,041	559	0·148	3·9

Total ...	9,793,981	14,350	0·147	100·0	9,793,981	14,452	0·148	100·

Statement No. III.—Nature and length of sentence.

13. The table which follows compares the sentences of the convicts admitted during the years 1894 and 1895:—

	Not exceeding 1 month.	Above 1 and not exceeding 3 months.	Above 3 months and not exceeding 6 months.	Above 6 months and not exceeding 1 year.	Above 1 year and not exceeding 2 years.	Above 2 years and not exceeding 5 years.	Above 5 years and not exceeding 10 years.	Exceeding 10 years.	Sentenced to Transportation. For life.	Sentenced to Transportation. For a term.	Sentenced to death.	Total.
1894 ...	5,883	3,081	2,726	1,644	822	464	150	5	163	14	59	15,011
1895 ...	5,781	3,216	2,644	1,730	8 9	571	178	4	128	22	60	15,156
Ratio per cent. to number admitted direct into Prison, 1894 ...	39·2	20·5	18·2	10·9	5·5	3·1	0·9	...	1·1	0·1	0·5	100·
Ratio per cent. to number admitted direct into Prison, 1895 ...	38·2	21·2	17·5	11·4	5·4	3·8	1·2	...	0·8	0·1	0·4	100·

14. There is little variation in the percentages of the figures. Under the head "Transportation for a term" the percentage is the same in both years.

15. The annexed table, which deals with the nature of imprisonment awarded, shows that under the heads "Rigorous Imprisonment with Solitary Confinement" and Rigorous Imprisonment with Whiping" there has been a decrease in the one case and an increase in the other:—

	1894.	1895.
Sentence of simple imprisonment	856	869
Do. rigorous imprisonment	14,040	14,161
Do. do. with solitary confinement ..	42	27
Do. do. with whipping ...	73	99
Total ...	15,011	15,156

16. Of 2,002 previously convicted prisoners admitted into the Prisons during the past year, 1,547 were identified before and 446 after trial, and 9 confessed themselves to be habituals. The number in the latter class shows a great falling off compared to that for the preceding year, during which 31 such confessions were recorded. It is desirable to here explain, with regard to the Bertillon system of Anthropometry, to which reference was made in paragraph 18 of my report for 1894, that the working of that system being entirely in the hands of the Police Department, there are no statistics relating thereto which are available in this office. It is assumed, therefore, that the report referred to in Government Resolution, Judicial Department No. 3451, dated 19th May 1894, will be furnished by the Police Department:—

Statement No. IV.—Re-convictions.

1	2	3	4	5	6	7	8
Number.	Prisons.	No. of convicts admitted during the year.	Number of convicts in column 3 identified as habitual offenders before conviction and whose previous convictions did not so appear in the records of proceedings at the trial.	Number of convicts in column 3 not so identified and whose previous convictions did not so appear, but who were after arrival in Jail identified by Jail officials as having been previously convicted.	Number of prisoners who confessed themselves to be habituals.	Total of columns 4 to 6.	Of the prisoners shown in column 7 the number classed by Courts as habituals.
1	Common Prison ...	2,478	557	189	...	746	417

	Total ... 1893 ...	12,317	1,258	789	50	2,097	1,100

17. A reference to this statement will show that the number of escapes in 1895 has been 16 as against 24 in 1894. Of the 16 escapes that occurred, 13 took place from extra-mural parties and 3 from inside the walls. Of the three escapes from within the walls, 1 was from the Karáchi Prison, 1 from the Ahmednagar Jail and 1 (female) from the Surat Jail. The circumstances under which each of these three prisoners contrived to get away were as follows :—

Statement No. V.—Escapes and Re-captures.

Karáchi Prison.—The prisoner, who was locked up in one of the transport cells, contrived, between 2 and 3 A.M., to force open the lock of his cell with the aid of a rope made out of twine extracted from his sleeping mat. After leaving his cell the prisoner removed some stones from the adjoining latrine, laying these one above the other and, crowning the pile with a portion of the latrine screen which he had uprooted, he was able, without difficulty, to scale the adjoining prison main wall. The warder who was on duty was prosecuted and sentenced to twelve months' simple imprisonment. The prisoner was re-captured during the year.

Ahmednagar Jail.—The prisoner effected his escape about 10 A.M. with the aid of the long bamboo handle of a brush with which he was sweeping the walls of the barracks. He was immediately missed by the warder in charge and, on the alarm being given, was re-captured within half an hour. The warder was punished departmentally.

Surat Jail.—The prisoner was locked in a room by herself. She removed two of the iron bars of the door, the wood-work of which was covered with a thick coating of tar and proved on examination to be thoroughly unsound, and contrived to get on the roof of the room, from which she scaled the wall. In the Surat Subordinate Jail the sleeping wards are built on to the main enclosing wall. The escaped woman in this case made off apparently without a stitch of clothing on her, leaving behind her, in the ward from which she escaped, her infant child. As the escape was not apparently discovered for some hours after it had been effected, it was found impossible to determine, with absolute certainty, with whom the responsibility for its occurrence lay.

18. The thirteen escapes from outside the walls occurred from parties belonging to the Prisons of Bijápur (1), Ahmedabad (2), Karáchi (1), Hyderabad (2), and Shikárpur (1) ; to the Sind Gang (2), to the Jails of Naushahro (1), Umerkot (1), Surat (1), and Sujawal (1). In some of the above instances the warders were prosecuted and in others they were punished departmentally according to the circumstances of each case. Of the total number, 16, of the prisoners who escaped during the year 6, as already stated in an earlier paragraph, were re-captured before the year closed. Ten prisoners of those who escaped in previous years were also re-captured during 1895, while one man voluntarily returned to the prison—Hyderabad—from which in 1894 he had effected his escape, for the purpose of surrendering himself ; a balance of 81 prisoners—of those who in the ten years preceding that under report had effected their escape—being thus left unaccounted for on the last day of the year. Of those prisoners who escaped during the year, 13 had unexpired portions of sentences amounting to less than one year in each case, while in the remaining 3 cases the unexpired portion of each sentence was in excess of one but under seven years.

19. This statement shows the offences committed by convicts in confinement, and the punishments inflicted on them. The number of criminal offences has increased from 29 in 1894 to 50 in the year under report. Of this last number, 28 offences were in connection with the Bijápur out-break of November 1894, while the remaining 22 consisted chiefly of escapes and attempts to escape. The number of offences under other heads has also increased—a circumstance which is almost entirely due to the disciplinary measures which had to be enforced in the Hyderabad Central Prison—a matter which formed the subject of comment in paragraph 23 of my last report. The number of offences committed in the Hyderabad Central Prison in 1894 was 234, while in 1895 the number has run up to 1,353. The construction of the special habitual ward in the Thána Prison has had a tendency to bring down the number of offences in that Prison, as the habitual convicts, being confined to their own quarter of the Prison, have had fewer opportunities of committing breaches of discipline :—

Statement No. VI.—Offences and punishments.

Offences dealt with—	1894.	1895.
By Criminal Courts	29	50
By Superintendents.		
Relating to work	1,990	2,893

	Total ...	1,242	1,619
	Grand Total ...	4,214	5,487

21. With an increase in the number of offences a corresponding increase in the number of punishments must be expected. The nature of the punishments awarded does not call for special remark except under the heads "Penal Diet with Solitary Confinement" and "Corporal Punishment," both of which exhibit a considerable increase over the figures of the previous year. With the disappearance of the stocks it has frequently been found necessary by Superintendents to inflict, as an alternative, one of the two punishments above referred to. Such a state of things was foreseen, as a reference to my letter No. 3537 of 31st July 1894 will show, and until some special forms of fettering and hand-cuffing, such as those referred to in that letter, are introduced as Prison punishments, I do not anticipate that the number of punishments of whipping and of solitary confinement combined with penal diet will show any very marked tendency to diminish. The number of whippings—45—inflicted on prisoners in the Hyderabad Central Prison during the past year undoubtedly at first sight, if regard be had to the population of the prison, appears unduly high. In last year's report I referred to the state of indiscipline with which Surgeon-Captain Jackson, the Superintendent, had, on the opening of Hyderabad as a Central Prison, to contend. During my inspection of the Hyderabad Central Prison in the past month of January, I examined closely into every one of the 45 cases of whipping inflicted in that Prison during the past year, and I have no hesitation in saying that, while if the stocks had still been in existence as a form of punishment, lengthened confinement in the stocks would, it is assumed, have in several of those cases been resorted to in place of whipping, in none of those 45 cases do I consider that recourse was had to an unduly severe form of punishment. I look confidently for a diminution in the yearly

tale of punishments in the Hyderabad Central Prison now that it has been clearly brought home to its prisoners that wilful disobedience of orders and defiance of authority, especially when accompanied by violent conduct, are offences on their part which will meet with prompt and adequate punishment.

22. The table below compares for the past two years the ratio of corporal punishments to other punishments throughout the department :—

		1	2	3						4	5	6	
		Total Number of male Prisoners for the year.	Total Number of Prison offences.	Total Number of Prisoners punished by whipping.						Percentage of Column 3 to Column 1.	Percentage of Column 3 to Column 2.	Number of Prisoners in whose case (a) death or (b) Illness was directly or indirectly the effect of Corporal Punishment.	
				5 to 10 stripes.	Above 10 to 15.	Above 15 to 20.	Above 20 to 25.	Above 25 to 30.	Grand Total.			(a) Death.	(b) Illness.
Total ...	1894...	*19,238	4,078	10	40	33	42	11	136	0·7	3·3	...	...
	1895...	*18,486	5,360	36	47	39	39	22	183	1·0	3·4	...	...

* These figures exclude the number of prisoners moved from Prison to Prison within the Department.

Imposition of fetters.

23. Sub-joined is the usual statement showing the number of cases in which fetters have been imposed during the year. The number in the preceding year was 4,221. There has been an increase in the figures under the heads "One to three months" and "Three to six months," but a decrease under all the other heads, showing periods for which fetters were imposed :—

	Total number of convicts confined.		Number of Cases in which fetters were not imposed or worn.		Number of Cases in which fetters were imposed or worn.		Length of Time for which Fetters were imposed or worn.									
							Under 1 month.		1 to 3 months.		3 to 6 months.		6 to 12 months.		Over 12 months.		Total.

Appendix C.—Mark System.

24. The number of prisoners on the mark rolls released during the year exhibits an increase over the figures for the previous year. For this increase no special reason, beyond that stated in paragraph 25 of the report for 1894, can be assigned. The 11 convicts shown as released from Sub-jails under remission rules are those who were borne on the registers of the Surat Jail after its reduction from a Prison to a Jail. Of those borne on the mark register only thirteen convicts failed to gain remission :—

	1891.	1892.	1893.	1894.	1895.
Number on mark rolls released	787	765	1,139	1,651	*1,884
Percentage of the number on mark rolls released to the number under sentence of 1 year and upwards	98·7	98·1	99·1	98·8	99·3

* This figure includes 11 prisoners released under remission rules from Subordinate Jails.

Statement No. VII.—Convict Officers.

25. With a daily average population of 7,049 males and 212 females, an average of 685 males and 16 females have been employed as Convict officers. The number of Convict officers employed in prisons and jails shows an increase of 3·2 per cent. in the case of males and 3·6 per cent. in the case of females over the figures for last year. The total number of male and female convicts employed as Convict officers in Prisons is about 10 per cent. of the average

population. As Convict night watchmen are included amongst Convict officers, it has been found difficult, and indeed impossible, owing to the varied character of the structural arrangements of the sleeping wards of our prisons, to fix a percentage which should serve for all Prisons. In some Prisons where the sleeping wards are large, one Convict night-watchman can supervise 40 to 50 convicts, while in others, where the wards are small, from 20 to 30 prisoners, and sometimes even less than the former number, are looked after by one Night-watchman. The number of punishments inflicted on Convict officers has increased, but—*vide* margin—that increase is not out of proportion to the increase in the number of the Convict officers. Regarding the "deferred pay" earned by Convict officers, on which the Government of India commented in paragraph 12 of their Resolution No. 8, Jails 379—390, dated 10th September 1895, a reference has already been made to Government and such has been disposed of by Government Resolution, Judicial Department No. 1909, dated 14th March 1896. The maximum amount of gratuity (deferred pay) earned by and paid to any one Convict officer during the year under report has been Rs. 24-14-0.

Total number of prisoners holding positions as convict officers in 1894 ...	856
Punishments	283
Total number of prisoners holding positions as convict officers in 1895 ...	1,263
Punishments	410

26. Several of the diet scales shown in this statement have been modified and issued to a selected number of convicts in several Prisons, and reports regarding the working of the same have been received from the Superintendents concerned. These reports have been considered, and the scales, where necessary, have been revised in the light of such reports. These revised scales will shortly be submitted along with a special report to Government.

Statement No. VIII.—Diet.

27. This statement deals with under-trial prisoners in Prisons, Subordinate Jails and Lock-ups. There is one foreign prisoner under detention in the Thána Prison—Government Resolution, Political Department No. 1779, dated 7th March 1896.

Statement No. XVIII.—Under-trial Prisoners.

28. There has been a large increase both in the number of males and females admitted as under-trial prisoners into Subordinate Jails and Lock-ups, especially the latter. The Lock-ups which have mainly contributed to this increase are marginally shown. The number of deaths amongst under-trial prisoners has been in Prisons 7, in Subordinate Jails 2, and in Lock-ups 12. Of the seven deaths in Prisons there were two suicides by hanging, one of which occurred in the Bijápur Prison, and one in the Prison of Shikárpur. There have been 19 escapes of under-trial prisoners from Lock-ups, five from Subordinate Jails and eight from a Prison. These lastnamed* eight prisoners all escaped at one time from the Ahmedabad Central Prison. At 4-15 A.M. on the 12th October last a report was made to the Superintendent of the Ahmedabad Central Prison that 9 under-trial prisoners had effected their escape. On reaching the under-trial yard of the Central Prison the Superintendent found that some of the bricks had been removed from one of the walls of the night latrine of the sleeping barrack, a hole, sufficiently capacious to admit of a man squeezing himself through such aperture, having been thereby made in the wall. The bricks had been removed with the aid of two small scraps of iron which had apparently been dug up from the ground of the yard of the under-trial quarter. This quarter, it may be stated, had been used, during the construction of the Prison, by the Public Works Department as a store, and the two pieces of iron had apparently become embedded in the ground, thus escaping the notice of any of the authorities of the Central Prison. The prisoners after making their escape from the under-trial yard proceeded to the main wall of the Prison. Here one prisoner stood on the ground while a second prisoner stood with his feet on the head of the former, a third prisoner in his turn standing, circus-fashion, on the head of the second. The topmost man of the three was thus enabled to clamber

Increase in direct admissions into lock-ups in 1895:—

Belgaum	251

* *i. e.* 9, less 1 re-captured = 8.

on to the coping of the main wall and thereafter, with the help of strips of clothing made into improvised ropes, it was an easy matter for the whole party to scale the main wall. The result of the very searching enquiry into the circumstances of the above affair, carried out by the Superintendent of the Ahmedabad Central Prison, was to convince me that, though there was not perhaps sufficient evidence to secure a conviction of the man had he been criminally prosecuted, the patrolling warder had omitted to visit the under-trial yard, as he should have done, shortly after midnight on the night of the escape—an omission on his part which directly contributed to the possibility of such being effected, and so he was dismissed from his employment. Since the above occurrence, and in view thereof, the system of watch and ward by night in the Ahmedabad Central Prison has undergone some alterations. One of the nine prisoners who effected his escape was shortly afterwards recaptured, and from his statement were gathered some of the particulars, above set forth, as to some of the main features of the occurrence.

29. The particulars regarding civil prisoners are shown in the table which follows:—

	1894.			1895.		
	Males.	Females.	Total.	Males.	Females.	Total.
Number remaining at close of previous year	155	1	156	127	...	127
Number received during the year.	1,699	3	1,702	1,904	3	1,907
Total population ...	1,854	4	1,858	2,031	3	2,034
Released during the year ..	1,724	4	1,728	1,891	3	1,894

Remaining on 31st December ...	127	...	127	139	...	139
Daily average number ...	117	...	117	122	...	122

Total Cost.	Cost per head of average strength.	Total Cost.	Cost per head of average strength.
Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
8,713 4 11	74 7 7	8,724 10 5	71 8 3

30. The number of prisoners admitted, as well as the daily average number, has been greater in 1895 than during the preceding year. The increase in the number of admissions has been in the case of the Civil Jail at Bombay 67, of Ahmednagar 19, Dhulia 49, Thána 12, and Ahmedabad 33 over the figures for the year 1894. There has been only one death during 1895 in Civil Jails, and this occurred at Poona. The total cost of maintenance of civil prisoners has been Rs. 8,724-10-5, and the average cost per prisoner Rs. 71-8-3 against Rs. 8,713-4-11 and Rs. 74-7-7 respectively in 1894.

FINANCIAL.

31. The statements marginally noted deal with the gross expenditure on account of all classes of criminal prisoners, including under-trial prisoners, in Central Prisons, Prisons, Subordinate Jails, and Lock-ups. These statements have under the orders of the Government of India—Government Resolution, Home Department, $\frac{\text{No. 10 Jails}}{668-679}$, dated 13th December 1894, embodied in Bombay

Statements Nos. IX and X.—Expenditure.

Government Resolution, Judicial Department No. 8643, dated 28th December 1894—been considerably revised in the direction of a more detailed system of classification. With a view to afford a means of comparison, the expenditure for the year 1894 has been classified in Statement IX on the lines recently laid down. An attempt has also been made in the above direction as regards Statement X for the past four years; but so far as the entries for 1892 and 1893 are concerned, the figures must not be accepted as strictly accurate. The above explanation will account for the figures appearing against the year 1894, in the statements accompanying this report, and in this report itself, not agreeing with those shown in the statements attached to the report for 1894, and with others again appearing in certain passages of that report. The expenditure on "Inspection and General Superintendence" has also been classified under the several heads from which it is made up, and has been included in Statement IX. The cost of Police and Military guards are now omitted from the expenditure, and the realizations from the Prison and Jail gardens deducted from the dieting charges.

32. The subjoined table compares the expenditure for the past two years:—

	1894.	1895.
	No.	No.
Average number of prisoners	8,022	8,260
	Rs. a. p.	Rs. a. p.
Establishment	2,29,566 0 0	2,27,430 0 0
Cost per prisoner	**28 9 11**	**27 8 6**
Dieting charges	2,21,787 0 0	2,29,671 0 0
Cost per prisoner	**27 10 4**	**27 12 11**
Hospital charges	15,382 0 0	17,451 0 0
Cost per prisoner	**1 14 8**	**2 1 10**
Clothing and Bedding of prisoners	21,161 0 0	24,015 0 0
Cost per prisoner	**2 10 2**	**2 14 6**
Sanitation charges	14,648 0 0	12,008 0 0
Cost per prisoner	**1 13 3**	**1 7 3**
Charges for moving prisoners	17,664 0 0	26,121 0 0
Cost per prisoner	**2 3 3**	**3 2 7**
Charges for other miscellaneous services and supplies.	14,342 0 0	17,625 0 0
Cost per prisoner	**1 12 7**	**2 2 2**
Travelling allowances	1,373 0 0	3,385 0 0

Contingencies	3,268 0 0	4,667 0 0
Cost per prisoner	**0 6 6**	**0 9 0**
Extraordinary charges for live stock and tools and plant likely to last for 3 years and upwards ...	2,656 0 0	2,693 0 0
Cost per prisoner	**0 5 4**	**0 5 3**
Grand Total of Expenditure ...	5,41,847 0 0	5,65,066 0 0
Cost per prisoner	**67 8 9**	**68 6 7**

Establishment.

33. It will be observed that there is a decrease under the head of establishment which is in a great measure due to the revision of establishment in connection with the opening of the Ahmedabad Central Prison.

34. The table below shows that the average rates of the chief food grains were lower in 1895 than in the previous year:—

	Average Rate per Rupee.			
	1894.		1895.	
	Lbs.	ozs.	Lbs.	ozs.
Rice	20	13	21	4
Wheat	27	15	28	2
Bájri	30	15	32	10
Jowári	35	14	37	3
Dál	32	3	30	8

Dieting charges.

35. The average cost per head of "dieting charges" in Prisons during the year under report has been Rs. 27-11-0 as compared with Rs. 27-5-0 in 1894. The increase is due partly to the higher scale of diet issued to the prisoners of the Sind Gang and partly to increased purchases of reserve stocks of cereals. The dieting charges per head of the prisoners in the Common Prison, the House of Correction, the Prisons of Yerrowda, Násik, Dhulia, Bijápur, Kárwár, Ratnágiri, Hyderabad, Shikárpur and the Deccan Gang all show a decrease when compared with the figures for 1894. The great decrease in the Dhulia Prison has been caused by the liberal diet issued to prisoners in the Dedargaon Gang having been stopped owing to the completion of the work on which that Gang was employed. The figures for the Ahmedabad Central Prison for 1895 cannot well be compared with those for the preceding year, as those shown for the year 1894 are an average of the figures for the Prisons of Ahmedabad, Dhuliakot, Surat and Kaira—Prisons which were closed when the Central Prison was opened. Unfavourable rates and the failure of the garden vegetable crop owing to the want of an adequate water-supply have been the cause of increase in the Rájkot Prison. The increase in the Dhárwár and Thána Prisons is more apparent than real, as the former had in stock at the end of the year grain of the value of Rs. 1,786-0-0 and the latter grain of the value of Rs. 1,745-0-0. An attempt which was made to store, in the months immediately preceding the advent of the Monsoon, a six months' supply of cereals in the Thána Prison, did not turn out altogether a financial success, owing to the grain which was stored having suffered from excessive moisture. An improvement has since been made in the storerooms and a further limited experiment in grain storage in the Thána Prison will be made, though I am very doubtful as to whether the extremely moist climate of Thána is one which will admit of grain stores being maintained in a sound condition during the four months commencing with the month of June and ending with that of September. For the remaining months of the year I do not anticipate that the maintenance of reserve stocks of grain in sound condition in the Thána Prison should present any insuperable difficulties. The cost per prisoner of dieting charges has in the Sind Gang risen from Rs. 36-8-0 in the year 1894 to Rs. 60-13-0 in the year under report. The cause of this rise I shall now proceed to explain. In the year 1894 the prisoners of the Sind Gang were encamped at Hyderabad, where they were employed on the construction of the Central Prison of that station. The nature of the work performed by the prisoners consisted of the usual forms of ordinary hard labour. The diet that was issued was, therefore, practically the same as that issued in Prisons; the vegetables consumed by the convicts of the Gang were also supplied free of cost by the Hyderabad Prison Garden, and the rates of provisions were similar to those obtaining in the Hyderabad market. During 1895 the Sind Gang has been stationed in the districts of Karáchi,

(Bahadipur,) and Hyderabad, (Shahdádpur), and the convicts have been employed on the hardest form of labour in the way of digging and embankment work. The diet has, therefore, had to be increased and the rates charged by the Contractor for supplies have been high as compared with those ruling at Hyderabad. This is to be expected, when it is considered that the Gang is located in an almost desert country, and that supplies have to be brought from a considerable distance. The conditions under which the convicts live have also to be considered when fixing the scale of diet. At times vegetables are not procurable except at fabulous prices, and in lieu of this article of diet whey or milk and molasses are issued. As a set-off against this, it may be remarked that whenever the dieting charges in the Sind Gang are high, that fact is an indication that the convicts of the Gang have ample work and that the earnings will be satisfactory. The dieting charges for many of the Prisons for 1896 are bound to be high as the price of food grains has recently risen considerably in a number of the Districts. The average cost per head of dieting charges, in Prisons and Jails and Lock-ups taken together, has been Rs. 27-12-11 as against Rs. 27-10-4 in 1894.

36. The gardens attached to Prisons and Jails have yielded a fair amount of profit during the past year. The Yerrowda Central Prison garden has not done so well as usual, and this is due to the realizations from the sale of grass having fallen off. This falling off is only temporary, and the sale of garden and other produce at Yerrowda is expected to reach its normal level during the current year. The value of vegetables supplied for the use of the prisoners from Prison and Jail gardens has been Rs. 12,595-13-5 against Rs. 15,947-7-2 in 1894. The disappearance of the old and well cultivated gardens of the Ahmedabad City, Dhuliakot, and Kaira Jails, their places being, so to speak, taken by the new and immature garden of the Central Prison of Ahmedabad, is the cause of the above decline.

Hospital charges.

37. The hospital charges per prisoner in Prisons, Jails, and Lock-ups have increased by three annas and two pies per head. In the year under report the cost per head of average strength in Prisons has been Rs. 2-7-1 against Rs. 2-2-3 in 1894. The figures for the Thána Prison, which in this connection leaves all other Prisons far behind, have been Rs. 5-14-0. There have, as a later portion of this report will show, been heavy sick and death rates in the Thána Prison during the year under report.

Clothing and bedding of prisoners.

38. The increase under this head is due to the issue of prison clothing to insufficiently clad under-trial prisoners, to the issue, on the recommendation of the Sanitary Commissioner, of "Kummerbunds" to the prisoners of the Shikárpur Prison, and to the renewal of the stock of clothing in some of the Prisons.

Sanitation charges.

39. During the year 1894 arrears of Halalcore tax were paid by the two Presidency Prisons. This was not the case in 1895 and the expenditure under this head has therefore fallen.

Charges for moving prisoners.

40. The transfer of prisoners to relieve overcrowding, and the moves of the camps of the Deccan and Sind Gangs have caused an increase in the expenditure under this head. A charge of Rs. 1,100 for the use of the Government steamer to carry the prisoners of the Sind Gang down the river Indus towards the end of 1894, was disbursed during the year under report.

Charges for other miscellaneous services and supplies.

41. The increase under this head has been due to lighting charges, annual outlay on uniforms, &c., and money payments as rewards for re-captures, and as deferred pay to Convict officers on discharge, and chiefly to the last two sub-heads. The increase in the biennial clothing allowance from Rs. 8 to Rs. 12 per warder has added to the cost of uniforms, and the opening of the Central Prisons of Ahmedabad and Hyderabad to that of accoutrements, as new belt plates, &c., have had to be purchased. The money payments in the shape of "deferred pay" to Convict officers have increased as the system has grown in age.

Travelling allowances.

42. The moves of the Deccan and Sind Gangs, the inclusion for the first time under this head of the travelling expenses of members of this office, and the transfers of Jailors and Clerks have contributed to produce the increased expenditure shown under the head marginally noted.

Contingencies.

43. Increases under the heads "Rents, Rates and Taxes" and "Service Postage" have caused a rise in the cost per prisoner under the head of "Contingencies." The increase under the former head has been due to the Násik Prison having been called upon to pay a tax of Rs. 17—charges for two years, Rs.34, were paid in 1895—to the enhancement of the Ratnágiri Prison rate from Rs. 8 to Rs. 41, and to the payment of Rs. 149 by the Deccan Gang as compensation for the land on which the Gang barracks were located at Unkal. Looking to the number of petitions which convicts now make to Government, I anticipate a steady rise under the head "Service Postage."

Extraordinary charges for live-stock, tools and plant, &c.

44. Contrasting the figures for the past two years the difference in the expenditure under the head "Extraordinary charges" does not call for special comment. The figures in bold type appearing in Statement IX under this head show that the realizations from the sale of unserviceable dead-stock have exceeded by the amount indicated the outlay on new dead-stock during the year in the Prisons against which such figures appear.

45. The total cost per prisoner has been Rs. 68-6-7 as compared with Rs. 67-8-9 in 1894—an increase of Re. 0-13-10. Other items in connection with the opening of the Central Prisons and the moves of the Gangs have also helped to swell the expenditure, and as such charges are not of a constantly recurring nature, there is every probability, unless something unforeseen occurs, of the charges under several of the heads showing a reduction when the figures for the year 1896 come to be compiled.

46. The above comments on Statements IX and X might doubtless deal more with matters of detail, but with the revised system of classification, still an absolute novelty, and with the disappearance of three Prisons, (two abolished and one reduced to the status of a Subordinate Jail during the year under report), great difficulty has been experienced in preparing the statements as they are now submitted to Government. That the revised system of classification is an immense improvement on the old method there can, I think, be no question, but until such time as it has been in force for two or three years satisfactory comment on the figures contained in the classification will be a matter of difficulty. Further references to Superintendents would, no doubt, have helped to clear up many minor points and would have facilitated the preparation of the statements, and also assisted this office in arriving at causes of increase in the items of expenditure, but such a measure would have further delayed the preparation of this Report, and this has not been considered desirable. In some of the statements which form the appendices to this Report, the figures in connection with expenditure incurred on European and Native prisoners are shown separately. This has been the practice for years as regards the House of Correction, though not as regards Yerrowda, and other Prisons in which Europeans are confined. The arrangement is of no practical value, and as it is likely to mislead in some cases, it will, with the permission of Government, be discontinued in future Reports. The figures regarding the cost of stationery supplied to the several Prisons have not been entered in column 12*f* of Statement IX, as Government Resolution, Financial Department No. 1196, dated 27th March 1896, was received after the statements had been compiled and up to date no figures have been received from the Stationery Department.

Statement No. XI.—Employment of Convicts.

47. The following table compares the employment of convicts for the year under report with that for the preceding year :—

Central and District Prisons.		Average number under sentence to labour.	Sick and convalescent.	Average number not employed for other reasons.	On unremunerative labour.	Prison officers.	Prison servants.	Gardening.	Grinding grain and preparing articles for Prison use.	On additions, alterations, &c., and repairs to Prison buildings	Manufactures.	Extra-mural labour.
Prisons.												
1894	Number	6,932	436	110	363	461	648	403	951	695	2,202	663
	Percentage	100	6·3	1·6	5·2	6·7	9·3	5·9	13·7	10·0	31·8	9·5
1895	Number	6,855	474	131	373	684	687	330	1,280	398	1,784	714
	Percentage	100	6·9	1·9	5·5	10·0	10·0	4·8	18·7	5·8	26·0	10·4
Subordinate Jails.												
1894	Number	211	10	1	26	...	37	67	18	3	35	14
	Percentage	100	4·8	0·5	12·3	...	17·5	31·8	8·5	1·4	16·6	6·6
1895	Number	307	14	2	22	8	47	75	42	5	88	4
	Percentage	100	4·6	0·6	7·2	2·6	15·3	24·4	13·7	1·6	28·7	1·3

48. Dealing with Prisons as distinguished from Subordinate Jails it will be seen from the above table that the total daily average number of prisoners sentenced to labour has decreased by 77, *i.e.* from 6,932 in 1894 to 6,855 in 1895. The number of sick and convalescent has increased, as also the number "Not employed for other reasons." The former will be commented on when dealing with the statements in connection with sickness and deaths. The increase in the latter has been due to the moves of the Deccan and Sind Gangs, the prisoners of which when in transit have been shown under this head. Under "Unremunerative labour" there is also an increase, the prisoners employed in tidying up the new Central Prison at Ahmedabad and in clearing the prickly pear in the station of Bijápur having been shown under this head. The increase in "Prison officers" has been referred to in paragraph 25 of this Report. The abolition of the Prisons of Kaira, Dhuliákot and Surat has reduced the number under "Gardening." The fitting up of the Hyderabad and Ahmedabad Central Prisons has caused an increase in the number engaged on "Preparing articles for Prison use." The number under the head "Additions and Alterations" has fallen owing to the completion of the two Central Prisons above-named. The number under "Manufactures" exhibits a decrease, and this was to be expected, as after the abolition of the three Gujarát Prisons, the prisoners, who during the year 1894 were shown under "Manufactures," were during the past year employed for a considerable period in setting up the various factory appliances in the Central Prison at Ahmedabad. There has been a small rise in the number of prisoners employed on "Extra-mural labour." In Subordinate Jails the increase under "Gardening" is due to the addition to the list of Subordinate Jails of the Surat Subordinate Jail. The factory operations in Subordinate Jails are as a rule limited to grinding grain, weaving cotton tape, and breaking stone, and the number of prisoners employed on these works varies with the demand for the out-turn, as these Jails are not permitted to accumulate large stocks of material. The inclusion of the Surat Jail figures under the head of "Subordinate Jails" accounts in a great measure for the increase in some of the Subordinate Jail heads and the decrease in some of the Prison heads of employment.

Statement No. XII.—Net cash earnings.

49. This statement shows the net cash earnings of convicts sentenced to labour. The earnings have amounted during 1895 to Rs. 88,354-2-0 against Rs. 88,554-15-0 in 1894—a decrease of Rs. 200-13-0. The average earnings of each prisoner sentenced to labour have been Rs. 12-5-0 and the average earnings of each prisoner employed on Jail manufactures have been Rs. 33-7-0 gainst Rs. 12-6-0 and Rs. 27-5-0 respectively, in the previous year. The following table shows the cash earnings for the years 1894 and 1895 :—

	1894.	1895.
	Rs.	Rs.
Factory	44,448	49,531
Extra-mural labour	25,302	34,766
Building and repairing Prisons ...	17,693	2,317
Subordinate Jails	1,112	1,740
Total ...	88,555	88,354

50. The figures in connection with the factory operations exhibit an increase of Rs. 5,083, and had it not been for the fact that the Ahmedabad Central Prison had to entirely reconstruct its factory, the profits no doubt would have been greater. In addition to the above Prison, the Bijápur, Dhárwár, Rájkot, Karáchi and Aden Prisons show a decrease in cash earnings during the year. It may be remarked that so long as the convicts of the Bijápur Prison are employed on clearing prickly pear without remuneration, small earnings from that Prison must be expected.

51. Regarding our factory operations I would say that a suggestion relating to the introduction of form printing for Government Departments as an industry in the Yerrowda Central Prison has already been placed before Government, and the orders passed by Government thereon have come to hand, while I have been engaged in the preparation of the present Report.

52. The summary appearing below shows that the work in connection with the sale* of three pie quinine packets has been carried on with some profit during the year under report:—

Quinine packets.

*Government Resolution, Judicial Department No. 4456, dated 28th November 1894.

Credits.

	Rs.	a.	p.
Filled packets in stock at the end of 1895	2	14	0
Value of raw materials ditto	105	15	0
Cash and credits realized during 1895	943	8	0
Amount deposited with the Post Offices and Hospital Assistants by way of permanent advance	2,002	2	0
Total ..	3,054	7	0

Debits.

156 lbs. quinine received during the year 1895 ...	2,439	12	0
Filled packets in stock at the end of 1894	0	0	0
Value of raw materials ditto	0	0	0
Envelopes and paper ditto	0	0	0
Miscellaneous charges, including postage	253	3	9
Extra establishment	99	2	8
Lost in transit	0	0	0
Total ...	2,792	2	5
Difference or profits ...	262	4	7

53. The profits shown above are not very substantial, and the sales of the packets have not as yet shown a tendency to increase to any great extent. By the end of the current year I shall be in a better position than I now am to judge as to the prospects of this quinine-packing industry increasing and developing. The Superintendent, Botanical Gardens, Calcutta, having been unable to meet the requisitions of the Superintendent, Yerrowda Central Prison, for quinine, supplies are now obtained by the latter officer from Ootacamund. The preparation and sale of quinine packets is now also being undertaken by the Hyderabad Central Prison: (Government Resolution, Judicial Department No. 5450, dated 14th December 1895).

54. As directed in Government Resolution, Judicial Department No. 7279, dated 16th October 1895, I append a statement showing the extent to which Jail manufactures have been utilized by Government Departments during the year 1895:—

	Rs.	a.	p.
Public Works Department	2,319	5	4
Telegraph Department	655	7	11
Other Civil Departments	6,821	12	9
Commissariat Department	1,513	15	0
Marine Department	479	6	4
Total ...	11,789	15	4

55. So long as there is no steam machinery in any of the Prisons of this Presidency, no large orders from the Military or other Departments can well be undertaken by this Department, the appliances available not admitting of the rapid out-turn and delivery of a large order.

56. Turning to the figures showing earnings under "Extra-mural" and "Building and Repairing Prisons"—figures under the latter head are not likely to appear in future Annual reports for some time to come, as the Hyderabad and Ahmedabad Central Prisons have been completed—the statement appended to paragraph 49 of this report shows that in 1894 the total earnings under the two heads above referred to amounted to Rs. 42,995, while in the year under review they have only reached the sum of Rs. 37,083—a decline of Rs. 5,912. This result is extremely disappointing, as with work obtained for both the Sind and Deccan Gangs, a rise in the earnings of these two gangs had been anticipated. The Sind Gang has fulfilled the anticipation in as much as the earnings for 1895 have exceeded those for 1894 by Rs. 6,291, notwithstanding that the average number employed has been 184 against 216 in 1894. The Deccan Gang, on the other hand, has certainly not done well, its operations having, from one cause and another, resulted in a considerable loss. The causes which have contributed to the above result have been stated in my letter No. 1632, dated 17th March 1896, and to those should be added the further one that the charges for erecting new temporary barracks, the construction of which for the accommodation of the prisoners was rendered necessary by the move in the month of January 1895 of the gang from the Dhárwár to the Khándesh District, have been debited against the earnings of the gang for the past year. I would, however, point out that the decrease in the Gang's earnings has not actually been Rs. 5,912, as a sum of about Rs. 6,000 is outstanding for work executed during 1895, and of this Rs. 4,000 have already practically been recovered. There is not at present much prospect of either Gang, Deccan or Sind, shifting its camp during the current year; and if no such move takes place, substantial and satisfactory earnings on the part of each Gang may be looked for by the end of 1896. The Bijápur convicts are still engaged on clearing away prickly-pear: (Government Resolution, Judicial Department No. 5320, dated 31st July 1894). The Public Works Department do not pay for the convict labour supplied for the above purpose, and it is not out of place to remark that the value of that labour thus gratuitously supplied to the above Department during 1895 has, after deducting the cost, Rs. 634-0-0, of the special warder establishment provided by the Public Works Department, amounted to about Rs. 1,920-0-0.

Earnings of Subordinate Jails.

57. The earnings of Subordinate Jails have risen from Rs. 1,112 in 1894 to Rs. 1,740 in 1895. The Wadhwán (Civil Station) Jail, which is controlled by this Department, exhibits very poor earnings. This is due in a measure to the somewhat old world notions of the Jailor, a good enough man in his way, but one who is altogether unacquainted with English and who has never had the advantage of a training on any of our Prison establishments. The Wadhwán Jail, it will be remembered, was placed under my supervision and control in 1892, and its Jailor has filled his present post for a considerable number of years. In contrast to this last named Jail may be cited the Sholápur Jail where the earnings of the garden have, after covering the cost of the entire dieting charges of the prisoners, left a surplus of Rs. 44 in hand.

58. This statement shows the total cost of the guarding, (Military and Police guards excluded,) and maintenance of Central Prisons, Prisons, Subordinate Jails, and Lock-ups. The total expenditure, excluding "Inspection charges and General Superintendence" has been Rs. 5,38,433 against Rs. 5,16,518 in 1894, an increase of Rs. 21,915. The actual cash realizations have been Rs. 88,354-2-0 against Rs. 88,554-15-0—a decrease of Rs. 200-13-0, thus making the total net cost to Government Rs. 4,50,078-14-0 in 1895 against Rs. 4,27,963-1-0 in 1894—an increase of Rs. 22,115-13-0. The average net cost per prisoner in 1894 was Rs. 53-5-0, while in 1895 it has been Rs. 54-8—an increase of Re. 1-3-0.

Statement No. XIII.—Net cost of Prisoners.

VITAL.

59. This statement shows the sickness and mortality among prisoners of all classes during the year. With a daily average strength of 8,381 prisoners confined in Prisons, Jails, Civil Jails, and Lock-ups, there have been 8,010 admissions into hospital, the daily average number of sick has been 250·5, and the total number of deaths 245 or 29·2 per mille of average strength. For the preceding year the figures were as follows: total number of admissions into hospital 6,593; daily average number of sick 235·3; total number of deaths 261, or a ratio, on a daily average strength of 8,139 prisoners, of 32·1 per mille.

Statement No. XIV.—Sickness and Mortality.

60. The capacity of the several Prisons, together with the daily average and maximum population on any one day, is shown in the following table :—

Prisons.	Capacity, inclusive of Hospital and Cell accommodation.	Daily Average.	Maximum Population.
Common Prison	180	272	324
House of Correction	262	303	368
Yerrowda	1,482	1,598	1,695
Násik	31	47	79
Dhulia	199	255	328
Bijápur	294	254	308
Dhárwár	336	387	430
Kárwár	252	73	89
Ratnágiri...	228	87	187
Thána	653	709	810
Ahmedabad	920	943	1,060
Rájkot	102	61	112
Karáchi	412	287	327
Hyderabad	865	722	983
Shikárpur	433	423	551
Aden	61	44	64
Total ...	6,710	6,465	7,715

61. Looking to the figures showing daily average population it will be seen that eight out of the sixteen Prisons have been overcrowded throughout the year under report. Out of these eight, three—the Common Prison, and the Prisons of Thána and Ahmedabad—show a mortality of over 33·3 per mille. As I had the honour of pointing out to Government in my No. 6130 of the 18th of last November, no efforts have been spared to relieve such overcrowding as far as possible, such abnormal transfers as those of prisoners from Ahmedabad to Thána, from Dhárwár to Bijápur, and from Bombay to Ratnágiri having been carried out during the past year with the above object. With the Deccan Gang so depleted in numbers as—owing to lack of labour on which to employ its prisoners—during the past year it has been, the departmental safety valve ordinarily available to relieve the pressure of overcrowding in the Prisons of the Presidency proper has been practically non-existent. There was no general overcrowding in the Sind Prisons.

62. As directed in Judicial Department letter No. 701, dated 28th January 1896, I am about to place before Government proposals for the construction of additional accommodation in the Central Prison of Yerrowda with a view to preventing overcrowding in many of our Prisons when, from one cause or another, the Deccan Gang is at skeleton strength.

63. The statement below deals with the sickness and mortality amongst convicts and under-trial prisoners confined in Prisons during the years 1894 and 1895:—

	1894.			1895.		
	Males.	Females.	Total.	Males.	Females.	Total.
Total population	24,110	916	25,026	23,507	917	24,424
Daily average strength	6,948	201	7,149	6,910	202	7,112
Number admitted into hospital .	5,874	121	5,995	7,148	119	7,267
Daily average sick	213·9	7·1	221·0	229·6	4·9	234·5
Number of deaths	236	2	238	226	3	229
Ratio per mille of deaths to total population	9·8	2·2	9·5	9·6	3·3	9·4
Do. do. to strength.	34·0	9·9	33·3	32·7	14·9	32·2
Do. do. to admission into hospital	40·2	16·5	39·7	31·6	25·2	31·5

64. The daily average number of sick during 1895 has been higher than in 1894, but the number of deaths has been less by 9. The Prisons of Thána, and Ahmedabad, the Deccan Gang, the Prisons of Karáchi and Shikárpur, and the Bombay Common Prison, all exhibit a ratio of mortality in excess of 33·3 per mille, the ratio being as follows:—Thána 54·2, Ahmedabad 51·3, the Deccan Gang 51·0, Karáchi 38·1, Shikárpur 37·4, and the Common Prison 34·8.

Thána Prison.—Of the 39 deaths which occurred during the year, 3 took place in January, 3 in February, 2 in March, 6 in August, 12 in September, 7 in October, 3 in November and 3 in December. Dysentery and diarrhœa carried off 17 prisoners, and of this number 9 came from the Ahmedabad Central Prison. In the month of May last, owing to the overcrowded state of the Ahmedabad Central Prison, a transfer therefrom of 60 prisoners to the Thána Prison was carried out. For some three months after the above transfer the prisoners from Ahmedabad remained in good health in the Thána Prison. Then, in the month of August, there appeared amongst them an epidemic of bowel-complaints, which resulted in 2 of their number dying in that month, 5 in the month of September and 2 in that of October. The Medical Officer of the Thána Prison having urged that the remainder of the prisoners received from Ahmedabad should be transferred to a more salubrious climate, they were moved from Thána to Yerrowda in the month of October with satisfactory results. From some remarks which I shall presently make regarding the sickness and mortality in the Ahmedabad Central Prison, Government will note the strange coincidence afforded by the following circumstances:—The Gujaráti prisoners transferred to Thána in the month of May, and the population of the Central Prison of the Province of Gujarát continued generally healthy throughout the earlier portion of the Monsoon months; in the month of August an epidemic of bowel-complaints, mainly confined to those Gujaráti prisoners, appeared among the population of the Thána Prison, resulting in a heavy mortality among the former, while an epidemic of bowel-complaints, also resulting in a heavy mortality, made its appearance in the Central Prison of Ahmedabad in the very same month of August. The Thána Medical Officer states, regarding these Gujaráti prisoners, that the men who were affected "died without rally. *Post-mortem* examination in most of these cases showed not a particle of tubercle in the lungs; but the prevailing pathological changes in dysentery were a gangrenous

form of sloughing of the sigmoid flexure of the colon and a similar affection of the transverse or ascending colon. In the diarrhœa cases on the other hand the parts of the bowels affected were the smaller intestines, similarly inflamed." The cases of dysentery were mainly confined to the rainy season; whereas the fatal diarrhœa cases were fairly distributed throughout the year. Nine of the other deaths that occurred were amongst men who had to be admitted into hospital, immediately on their arrival in the Prison, for diseases contracted before admission. One of these nine suffered from leprosy and its complications, two from advanced phthisis, one from tubercle of lungs, one from brancho-pneumonia, one from chronic bronchitis, two from secondary syphilis, (one of whom after being eight months in hospital died of remittent fever), and one, an opium-eater, from dysentery.

Ahmedabad Prison.—Of the 49 deaths that occurred in this Prison, 4 occurred in January, 5 in February, 4 in March, 2 in May, 2 in June, 1 in July, 7 in August, 7 in September, 11 in October, 3 in November and 3 in December, and the diseases from which the 49 prisoners died were dysentery 18, diarrhœa 5, pneumonia 10, malarial cachexia 1, pneumonic phthisis 1, tubercle of lungs 9, erisypelas 1, remittent fever 1, fatty degeneration of heart 1, accute bronchitis 1 and pyœmia 1. In this Prison, as well as in the Thána Prison, the drinking water was sent to the Chemical Analyser at different periods for test, and was pronounced fit for potable purposes. Up to the end of the month of July, *i. e.*, during the first seven months of the year, there had been in all only 18 deaths in the Ahmedabad Central Prison, equal to a ratio of about 30 deaths per mille for the year, while during the remaining five months of the year 31 prisoners died, giving a ratio of about 65 deaths per mille during the year. It is very disappointing that in the first year of its history the Ahmedabad Central Prison, provided as it is with an excellent water-supply, and with its buildings constructed according to up-to-date ideas in the matter of sanitary arrangements, should have produced such a heavy death roll. The Medical Officer of the Central Prison writing on the 18th of November, in reply to a question addressed by me to him on the subject, stated that he was unable as regards the cases of dysentery to point to any definite cause, though he added that certain adverse conditions which are the necessary accompaniments of a stay in Prison must in his opinion have been contributory causes to the appearance of the disease in the Central Prison. Of the 23 prisoners who died from dysentery or diarrhœa in the Ahmedabad Central Prison six were upwards of 60 years of age, and four were between 50 and 60. Of the 18 prisoners who during the months of August, September, and October died from either dysentery or diarrhœa 4 were old and unfit life transports, 3 of whom had been many years in Prison. The *post-mortem* examinations in the case of the 13 deaths from dysentery during the three months named above revealed the fact that in 10 out of those 13 cases the deceased prisoner had been suffering from more or less pronounced lung disease. The average yearly rainfall on the Sabarmati plain, on which the Central Prison of Ahmedabad stands, is about 33 inches. Between the 20th of June and the 25th October 1895, 34 inches and 50 cents of rain were registered at Sabarmati, and of this amount no less than 16 inches and 59 cents, or very nearly half the entire rainfall of the Monsoon months, were registered in the month of August alone. There was only one rainy day in September, and there were three towards the end of October, and those two months were, therefore, abnormally hot and dry. The Ahmedabad Central Prison stands on what may fairly be termed virgin soil, and Mr. Pegge, the Superintendent, in a letter addressed to me on the subject of the sickness and mortality in the Central Prison, in which he has dealt with those questions from the standpoint of a non-medical man, has, I think, very pertinently remarked that the class of weather which I have indicated may possibly, in view of the nature of the site to which I have referred, have prejudicially affected the health of a number of prisoners by intensifying the malarial conditions of the newly occupied walled-in space occupied by the Central Prison. As I have remarked, it is a great disappointment to find the first year of the history of the new Ahmedabad Central Prison marked by such a heavy death roll as that under reference. In taking

leave of this question it is, however, legitimate to point out that the mortality of the Prisons of Ahmedabad City, of Dhuliákot, and of Kaira—three Prisons which no longer exist—and of Surat—which has been reduced to the status of a Subordinate Jail, and in which no deaths occurred during the past year—has been concentrated, so to speak, in the Ahmedabad Central Prison, and that, high as the death rate per mille—51·3—on daily average strength has proved to be in that Prison during the past year, it falls very much below the Kaira Prison death rate of 73·2 per mille in 1890, of 70·4 per mille in 1892, of 123·1 per mille in 1893, and of 113·6 per mille in 1894; and of the Surat Prison death rate of 65·2 per mille in 1893; while it is also appreciably less than the Dhuliákot Prison death rate—56·7 per mille—in 1891, slightly under that—51·9 per mille—of the Ahmedabad City Prison for 1890 and that—52·3 per mile—of Surat Prison for 1894.

Deccan Gang.—In the month of July last cholera and epidemic diarrhœa made their appearance amongst the prisoners. There were fourteen cases, with five deaths, of the former disease, and two, both of which proved fatal, of the latter. Out of the fifteen deaths among the prisoners of the Gang recorded during the year, seven, therefore, occurred during the epidemic. Prompt measures were taken, in the shape of stoppage of work, shifting of camp, boiling drinking water, &c., to check the disease. The cause of the outbreak could not be clearly traced, but as cholera was prevalent in a neighbouring village, it may be assumed that the disease found its way thence to the Gang camp, although all communication between the camp and the village in question had been prohibited. Of the remaining eight deaths among the prisoners of the Gang one was from remittent fever, one from congestion of the brain, one from pneumonia, two from diarrhœa, one from debility, one from valvular disease of the heart, and one from dysentery.

Karáchi Prison.—Pneumonia is responsible for six out of the eleven deaths in this Prison. The Medical Officer of this Prison remarks that the increased sickness in the city of Karáchi is attributed to a rise in the subsoil water and to soakage of the surface with sullage, due to the combined action of unusual rainfall and the yearly accumulating influence of an abundant water-supply with inadequate removal of waste by drainage. One of the deaths in this Prison was due to injuries received by a fall prior to admission.

Shikárpur Prison.—Out of the sixteen deaths in the Shikárpur Prison four occurred amongst the under-trial prisoners, and of these four one was a case of suicide by strangulation. Eight of the deaths were due to pneumonia and two to apoplexy. One convict who died from congestion of the right lung was upwards of eighty years of age. "Kummerbunds" as a protection against chills have been issued to the Shikárpur prisoners during the past year.

Common Prison.—Of the eleven deaths in this Prison five occurred from dysentery and diarrhœa, two from tubercle of lungs, two from pneumonia, one from jaundice, and one from apoplexy. Four of these were in bad health on admission into Prison.

65. The statement below contrasts the mortality in Subordinate Jails and Lock-ups during the years 1894 and 1895 :—

	1894.						1895.					
	Jails.			Lock-ups.			Jails.			Lock-ups.		
	Males.	Females	Total.	Males	Females	Total.	Males.	Females	Total.	Males.	Females	Total.
Total population	5,697	283	5,980	40,370	2,203	42,573	7,073	384	7,457	48,939	2,579	51,518
Daily average strength	330	15	345	506	22	528	492	25	517	605	26	631
Number admitted into hospital ...	304	9	313	259	11	270	379	39	418	287	24	311
Daily average sick	8·4	0·7	9·1	4·7	0·1	4·8	9·6	0·9	10·5	4·9	0·3	5·2
Number of deaths	8	...	8	11	1	12	3	...	3	9	3	12
Ratio per mille of deaths to total population.	1·4	...	1·3	0·3	0·5	0·3	0·4	...	0·4	0·2	1·2	0·2
Do. do. strength ...	24·2	...	23·2	21·7	45·5	22·7	6·1	...	5·8	14·9	115·4	19·0
Do. do. admission.	26·3	...	25·6	42·5	90·9	44·4	7·9	...	7·2	31·4	125·0	38·6

66. The health statistics of the Subordinate Jails and Lock-ups exhibit an improvement over the figures for 1894. The daily average sick in Subordinate Jails has been 10·5 against 9·1 in 1894, and in Lock-ups 5·2 as com-

pared with 4·8. The number of deaths during 1895 in Subordinate Jails has been three, and the number of deaths in Lock-ups during 1895 has been twelve—the same as in the year previous.

Statement No. XV.—Admissions and Deaths from chief Diseases.

67. The statement below is an abstract of Statement XV which deals with the number of admissions into hospital and the deaths from the chief diseases amongst convicts confined in Prisons for the past two years:—

	1894.		1895.	
	Admissions.	Deaths.	Admissions.	Deaths.
Small-pox	...	...	...	...
Intermittent fever	2,268	3	2,927	1
Remittent and continued fever ...	95	5	96	9
Other fevers	66	1	38	4
Cholera	13	8	14	5
Scrofula and phthisis pulmonalis ...	26	11	45	18
Anæmia and general debility ...	84	11	102	8
Respiratory diseases	569	100	458	60
Dysentery and diarrhœa	831	41	894	71
Jaundice	44	...	31	1
Ulcers and boils	186	1	268	...

68. The number of admissions under "Intermittent Fevers" exhibits a large increase, but there has only been one death under this head. Nine deaths occurred from "Remittent and Continued Fever" and four from "Other Fevers," making a total of thirteen, or an increase of seven over the figures under these two heads for 1894. The number of deaths from cholera has been five, these having all occurred in the Deccan Gang. Compared with the figures for the year 1894, an increase is observed in the number of deaths from "Scrofula and Phthisis Pulmonalis", and a decrease under the head "Anæmia and General Debility." The number of deaths from "Respiratory Diseases" has fallen from 100 in 1894 to 60 in the year under report, whereas the number of deaths from "Dysentery and Diarrhœa" has risen from 41 to 71. Of this last number 23 deaths occurred in the Ahmedabad Central Prison, 17 in the Thána Prison, and 11 in the Yerrowda Central Prison.

Statement No. XVI.—Mortality according to length of original sentence.

69. This statement, which has been modified—Government Resolution, Judicial Department No. 3521, dated 28th May 1895—to the extent of alterations in the headings of columns 3 to 6, deals with the mortality according to length of original sentence. The mortality has been highest amongst those sentenced to "Above one year and not exceeding three years," as will be seen from the subjoined table:—

	1894.			1895.		
	Average Number.	Deaths.	Ratio of deaths per mille of average strength.	Average Number.	Deaths.	Ratio of deaths per mille of average strength.
Not exceeding six months ...	1,763	54	30 6	1,343	32	23·8
Above six months and not exceeding one year	1,090	41	37·6	1,205	36	29·9
Above one year and not exceeding three years	1,739	67	38·5	1,649	68	41·2
Above three years and not exceeding seven years	1,539	42	27·3	1,667	47	28·2
Above seven years	851	29	34·1	1,067	39	36·6
Total ...	6,982	233	33·4	6,931	222	32·0

Statement XVII.—Mortality according to length of residence in Prison.

70. The annexed table is an abstract of Statement XVII, which has also, like Statement XVI, undergone modification, and shows the mortality according to length of time passed in Prison :—

	1894.			1895.		
	Average Number.	Deaths.	Ratio of deaths per mille of average strength.	Average Number.	Deaths.	Ratio of deaths per mille of average strength.
Under six months in Prison ...	3,494	100	28·6	3,349	72	21·5
From 6 to 12 months	1,177	39	33·1	1,217	48	39·4
„ 1 to 2 years	1,011	43	42·5	955	43	45·0
„ 2 to 3 years	487	15	30·8	524	19	36·3
„ 3 to 7 years	591	26	44·0	647	26	40·2
Above 7 years	222	10	45·0	239	14	58·6
Total ...	6,982	233	33·4	6,931	222	32·0

71. There has been a decrease in the ratio in the first and fifth heads and an increase in the others. The increase in ratio under the head "Above 7 years" is high.

72. The table which follows, and which refers to the weights of prisoners on admission into and discharge from Prison, shows that the percentage of those who had lost weight during confinement has somewhat increased, a slight decrease appearing in the percentage of those who had gained weight, and a more appreciable decrease in that of those whose weights had remained stationary :—

	1894.		1895.	
	Number.	Percentage.	Number.	Percentage.
Number discharged during the year	15,210	...	14,326	...
Do. who gained weight	8,127	53·4	7,627	53·2
Do. who lost weight	4,282	28·2	4,265	29·8
Do. who remained stationary	2,801	18·4	2,434	17·0

73. While on the subject of the weights of prisoners I trust that I may be permitted to say that the provision, appearing in Section 35 (2) of the Prisons Act, which requires every labouring prisoner confined in, at all events, a Prison as distinguished from a Subordinate Jail, to be weighed fortnightly, is one which I regard—and this is an opinion which is shared by a number of our Superintendents—as causing an immensity of unnecessary trouble. Monthly, instead of fortnightly, weighments would, I venture to affirm, be sufficient for all reasonable purposes.

OFFICIAL AND NON-OFFICIAL VISITORS.

74. The statement below relates to the visits to Prisons and Jails carried out by official and duly appointed non-official Visitors. Until such time as the rules for the guidance of Visitors which have been framed receive the approval of Government, any comments on the figures would not prove of much value, as many Visitors at present are somewhat uncertain as to the exact nature of their duties as such.

No.	Prisons.	Number of official Visitors appointed.	Quarterly Meetings.					Number of other occasions on which an Official Visitor visited the Prison during the year.	Number of visits paid by appointed non-official Visitors during the year.
			Number in the year.	Number of Official Visitors present.

BUILDINGS.

75. The statement below shows the Major and Minor works for which allotments have been made during the year, the allotments for those projects classified as Major and Minor works having been provided from the general funds of the Public Works Department, and the remaining 26 works having been financed from the Prison Departmental Discretionary Grant:—

District.	Place at which carried out.	Nature of Works.	Amount Allotted.	Remarks.
		Major Works.	Rs.	
Ahmedabad	Central Prison ...	Quarters for Deputy Jailor and compounder.	4,600	
Dhárwár	Prison	Enlargement of under-trial ward	5,296	
Do.	Do.	Increasing lateral ventilation of Barracks .	3,000	
Do.	Do.	Cattle shed, dairy and peon's room ...	3,600	
Surat	Jail	Conversion of the Prison into a Subordinate Jail.	8,221	
Poona (Yerrowda) ...	Central Prison ...	Bathing platforms and new pump ...	12,884	
Do. ...	Do. ...	New main for improvement of water-supply.	2,651	
		Minor Works.		
Dhárwár	Prison...	Bathing platform on Muzafferpore plan...	1,350	
Sholápur	Jail	Roof to Jailor's quarters and office... ...	1,210	
Belgaum	Do.	New main enclosure wall on south side ...	1,400	
Do.	Do.	Sinking a well	1,200	
Thána...	Prison...	Bathing platform on Muzafferpore plan ...	2,219	
Do.	Do.	Ventilators to cells and a cook-room for Matrons' quarters.	1,893	
Poona (Yerrowda) ...	Central Prison ...	Iron roof over a store-room	1,000	
Do. ...	Do.	Chamber for disinfecting clothing ...	1,100	
Do. ...	Do.	Two cattle sheds	2,094	
Thar and Párkar ...	Umerkot Jail ...	Enlargement of Subordinate Jail... ...	1,740	
Bijápur	Prison	Enlargement of hospital	2,500	
		Discretionary Grant.		
Ahmedabad	Central Prison ...	Alterations to well	166	
Do.	Do.	Shutters to doors of male hospital ...	67	
Do.	Do.	Do. of female under-trial ward ...	22	
Do.	Do.	Do. of male do. ...	22	
Do.	Do.	Parapet wall to well	37	
Do.	Do.	Conversion of warders' quarters into quarters for Compounder.	87	

District.	Place at which carried out.	Nature of Works.	Amount allotted.	Remarks.
		Discretionary Grant—continued.		
Dhulia...	Prison	Alterations to the cook-room	67	
Karáchi	Do.	Latrine for the hospital	260	
Panch Mahâls ...	Godhra Jail	Latrine for Jailor's quarters	72	
Thána...	Prison	Eave gutters and down pipe to rear entrance of Prison (for granary).	186	
Do.	Do.	Ventilators in the central kitchen ...	100	
Poona (Yerrowda) ...	Central Prison ...	Ventilators in the store-rooms	98	
Do. ...	Do.	Removal and reconstruction of a shed for storage of dry earth.	235	
Do. ...	Do.	Latrine for solitary cells	232	
Do. ...	Do.	Improvement of drainage of solitary cell enclosure.	26	
Sholápur	Jail	Gates to Jail compound	135	
Do.	Do.	Wooden railing to simple imprisonment prisoners' yard	105	
Dhárwár	Prison	Ventilators for grain pits	132	
Do.	Do.	Alterations to solitary cells	325	
Do.	Do.	Ward for simple imprisonment prisoners.	166	
Belgaum	Jail	Alterations to Jailor's quarters	46	
Do.	Do.	Latrine for Jailor's quarters	47	
Do.	Do.	Warders' latrine	42	
Presidency	Common Prison ...	Petty alterations to the cells in the hard labour yard.	38	
Sátára	Jail	Iron bars to office windows	20	
Bijapur	Prison	Tarring walls of cells	100	

MISCELLANEOUS REMARKS.

76. In accordance with the instructions contained in Government Resolution, Judical Department No. 764 dated 29th January last, steps have been taken towards ascertaining the feasibility and cost of constructing cubicles in the Barracks and Wards of a number of our Prisons, and regarding this matter a separate report will hereafter be submitted to Government.

77. The following Prisons, Gang and Jails have been visited and inspected by me during the past year :—

Central Prisons.

Yerrowda.
Ahmedabad.
Hyderabad.

Prisons.

Shikárpur.
Karáchi.
Rájkot.
Násik.
Thána.
House of Correction.
Common Prison.

Dhárwár.
Kárwár.

Prisons—continued.

Ratnágiri.
Dhulia.

Gang.

Deccan.

Subordinate Jails.

Surat.
Wadhwán.
Alibág.
Sátára.
Ahmednagar.
Sholápur.
Belgaum.
Bhusáwal.

78. Captain W. P. Walshe, who had for upwards of twenty-two years and a half filled the post of Superintendent of the Bombay House of Correction, retired on pension in November last.

79. The Jailor of Kárwár Prison, Mr. J. M. Cardozo, absconded in the month of February 1895, taking refuge in Goa Territory, from which an unsuccessful effort was made to obtain his extradition at the hands of the Government of Goa. The circumstances which led to the above individual making himself scarce were fully explained to Government in my letter No. 2161, dated 4th April 1895, and all that remains to be said in this connection on the present occasion is that steps have been taken to recover from the late Jailor's sureties the amount of the former's defalcations.

80. It is due to Surgeon-Captain Jackson, the Superintendent of the Central Prison of Hyderabad, and now acting as Superintendent of the Central

Prison of Yerrowda during the absence on leave of Brigade-Surgeon Lieutenant-Colonel Salaman, that I should place on record my hearty sense of the good work done by him during the eleven months of the past year, throughout which he was in charge of the former Central Prison. Towards the close of 1894 Surgeon-Captain Jackson was called upon to undertake the charge of a Prison which was in process of transformation from one of the District to one of the Central type—a Prison in which discipline was lax, and the warder establishment of which I regarded—and rightly—as about the worst in the whole Department. Surgeon-Captain Jackson has had an up-hill and difficult part to play during the year under report, not only in bracing up the bonds of discipline at Hyderabad, but also in looking after the endless matters which, in connection with the opening of a new Central Prison, are constantly claiming the attention, and the close attention of the Superintendent, and that part I have no hesitation in saying that I consider Surgeon Captain Jackson has played with marked success.

81. Though the incident does not belong to the year with which this Report deals, I would wish, before bringing it to a close, to refer to the approaching departure from this office of the Personal Assistant, Mr. C. N. Hall, owing to the well earned promotion, to the Superintendentship of the House of Correction, which he has obtained. In Mr. Hall this office loses a Personal Assistant of unflagging energy, and one, moreover, who is possessed—by reason of his long service as Jailor of the Shikárpur Prison and the many occasions on which he was—sometimes for many months at a time—in charge of that Prison as its Officiating Superintendent—of a very thoroughly practical acquaintance with all the details, great and small, of Prison administration. Mr. Hall has filled the post which he is now about to vacate for between four and five years, and I view his departure from this office with much regret.

I have the honour to be,
Sir,
Your most obedient Servant,

T. M. FILGATE,
Inspector-General of Prisons.

4	Násik ...	Ráo Bahádur Lallubhai Goverdhandas and Mr. W. Plunkett.	Messrs. Balvant Narayan Tekale and R. Amritlingum Mudliar.
5	Dhulia ...	Surgeon-Major K. A. Dalal ...	Mr. I. Solomon.
6	Bijápur ...	Surgeon-Captain S. E. Prall and Brigade-Surgeon-Lieutenant-Colonel C. T. Peters.	Messrs. Ganesh Sadashiv Bhide and Edulji Dorabji.
7	Deccan Gang ...	Mr. J. L. Taylor and Assistant-Surgeon-Abdul Ghani Hakim.	.....
8	Dhárwár ...	Surgeons-Major H. McCalman and D. C. Davidson.	Messrs. Thomas Cabral, Edulji Dorabji and Subrao Kallingaya.
9	Kárwár ...	Surgeon-Lieutenant-Colonel J. A. Howell, Assistant Surgeon V. B. Karandikar and Surgeon-Captain S. E. Prall.	Messrs. J. M. Cardozo, Subrao Kallingaya and J. P. Rasquinha.
10	Ratnágiri ...	Assistant Surgeon P. P. Moolan, Surgeons-Major F. Crimmin and M. Collie.	Messrs. Subrao Kallingaya, Nusserwanji Rustomji and Ganesh Sadashiv Bhide.
11	Thána ...	Mr. W. W. Wellis	.....
12	Ahmedabad ...	Mr. W. T. Pegge	Mr. Jamsedji Darasha.
13	Rájkot ...	Surgeon-Captain H. Herbert, Surgeon-Lieutenant W. Carr Sprague, Surgeon-Lieutenant-Colonel F. C. Barker, Surgeons-Captain W. E. Jennings and J. McCloghry.	Mr. Achratlal Purshotamdas.
14	Karáchi ...	Mr. Dadabhai Sorabsha Munsiff ...	.....
15	Hyderabad ...	Surgeons-Captain James Jackson and S. H. Burnett.	Mr. D. Solomon.
16	Shikárpur ...	Surgeon-Captain J. B. Smith and Assistant-Surgeon M. J. Mistri.	Messrs. J. D. Gabriel and Ailmull Tolaram.
17	Sind Gang ...	Assistant Surgeons G. M. Dixon and D. E. Kothawalla.	Mr. Dewandass.
18	Aden ...	Surgeon-Major J. W. T. Anderson, Surgeons-Captain W. Carr Sprague and J. L. T. Jones.	Mr. Cowasji Jamsetji Modi.

No. 4569 OF 1896.

JUDICIAL DEPARTMENT.

Bombay Castle, 1st July 1896.

Letter from the Inspector-General of Prisons, No. 2707, dated the 13th May 1896—Submitting the Annual Report on the Prisons of the Bombay Presidency for the year 1895.

RESOLUTION.—The total number of prisoners, civil and criminal, confined during the year 1895 in the prisons, jails and lock-ups of this Presidency amounted to 85,433 as compared with 75,437 in the preceding year, and the daily average was 8,382 as against 8,139. The following table shows the numbers of the different classes of prisoners confined during the past three years:—

Class of Prisoners.	1893.	1894.	1895.
Convicted	26,813	25,565	25,809
Under-trial	50,630	48,014	57,590
Civil	1,950	1,858	2,034
Total ...	79,393	75,437	85,433

The increase in the total number of prisoners confined during 1895 appears, therefore, to be almost entirely due to an unusual increase in the number of under-trial prisoners. The lock-ups of Bombay alone are said to be responsible for an increase of over 7,000, and the Inspector-General should be requested to report to what causes he attributes it.

2. The manner in which the 25,809 convicted prisoners were dealt with is concisely shown in the table given in paragraph 9 of the report, which is reprinted below for ready reference:—

	1894.			1895.		
	Males.	Females.	Total.	Males.	Females.	Total.
Transferred to other prisons—						
To undergo sentence	3,126	95	3,221	3,310	77	3,387
For transportation beyond seas, &c.	127	7	134	106	4	110
Released on appeal	876	28	904	877	28	905
Do. on expiry of sentence ...	11,604	591	12,195	11,322	595	11,917
Do. under Remission Rules ...	1,599	52	1,651	1,830	54	1,884
Do. by order of Government on account of sickness ...	1	1	2	8	...	8
Do. on other grounds	24	...	24	8	1	9
Transported beyond seas	106	6	112	122	6	128
Transferred to Lunatic Asylums ...	8	...	8	4	...	4
Escaped	15	...	15	9	1	10
Executed	31	...	31	28	...	28
Died	238	2	240	220	3	223
Number remaining on 31st December	6,832	196	7,028	6,979	217	7,196
Total ...	24,587	978	25,565	24,823	986	25,809

The variations in the figures are slight and do not call for special comment.

3. There were again no variations requiring notice in the sentences which the convicts were undergoing, and the figures showing the number of convicts who were identified by the Jail officials as old offenders though no previous convictions had been proved against them before they were sentenced, remained

very much the same as in the preceding year. The Inspector-General of Prisons has remarked that as the Bertillon system of anthropometry is being worked by the Police Department, he has no means of watching its progress. It appears to the Governor in Council that the officers of the Jail and Police Departments should work together so as to ensure the fullest use of the system. The Heads of these Departments should consult together as to the best means of bringing this about.

4. There was a considerable increase from 4,214 to 5,487 in the number of punishments inflicted on convicts for breaches of jail discipline, and there was a marked increase in the number of serious offences committed by convicts which had to be referred to the Criminal Courts for trial. The latter increase is accounted for by the outbreak from the Bijápur Prison in 1894, and the former is largely due to the special measures which were found to be necessary to bring the Hyderabad Central Prison into a proper state of discipline. As regards the different kinds of punishments inflicted, there are considerable variations, and among major punishments the increase in the number of cases of solitary confinement is specially marked. The increase in the number of cases of corporal punishment and solitary confinement is attributed by the Inspector-General to the abolition of the stocks. The number of cases of corporal punishment at the Hyderabad Central Prison is certainly large for a single prison, but the Inspector-General has satisfied himself that the special circumstances of the prison demanded severe measures. The mark system of granting remissions appears to have continued to work satisfactorily and the number of convict officers employed showed an increase both in male and female officers.

5. The large increase in the number of under-trial prisoners confined during the year has already been remarked upon. There were 33 escapes of under-trial prisoners as against 5 in 1894 and 17 in 1893. The number is large, and the escape of 9 prisoners from the newly constructed Central Prison of Ahmedabad is remarkable, and it is hoped that the change in watch and ward by night will prevent the recurrence of such escapes in the future.

6. The table given in paragraph 32 of the report compares in a convenient form the expenditure on account of convicted and under-trial prisoners during the year and is reprinted below :—

	1894.			1895.		
Average number of prisoners	No. 8,022			No. 8,260		
	Rs.	a.	p.	Rs.	a.	p.
Establishment	2,29,566	0	0	2,27,430	0	0
Cost per prisoner	28	9	11	27	8	6
Dieting charges	2,21,787	0	0	2,29,671	0	0
Cost per prisoner	27	10	4	27	12	11
Hospital charges...	15,382	0	0	17,451	0	0
Cost per prisoner	1	14	8	2	1	10
Clothing and bedding of prisoners	21,161	0	0	24,015	0	0
Cost per prisoner	2	10	2	2	14	6
Sanitation charges	14,648	0	0	12,008	0	0
Cost per prisoner	1	13	3	1	7	3
Charges for moving prisoners	17,664	0	0	26,121	0	0
Cost per prisoner	2	3	3	3	2	7
Charges for other miscellaneous services and supplies.	14,342	0	0	17,625	0	0
Cost per prisoner	1	12	7	2	2	2
Travelling allowances	1,373	0	0	3,385	0	0
Cost per prisoner	0	2	9	0	6	7
Contingencies	3,268	0	0	4,667	0	0
Cost per prisoner	0	6	6	0	9	0
Extraordinary charges for live stock and tools and plant likely to last for three years and upwards ...	2,656	0	0	2,693	0	0
Cost per prisoner	0	5	4	0	5	3
Grand Total of Expenditure ...	5,41,847	0	0	5,65,066	0	0
Cost per prisoner ...	67	8	9	68	6	7

The Inspector-General has explained in detail the variations between the two years, and the increase of 13 annas 10 pies in the total cost per prisoner does not appear to be attributable to any one cause. The Inspector-General, however, anticipates a decrease during the current year. The experiment in grain storage in the Thána Prison was not a success owing to the extreme moisture of the Thána climate, but the result of the further experiment will be awaited. The increase in the money payments on account of "deferred pay" to convict officers was to have been expected, and the Inspector-General has separately been directed to carefully watch the working of the system. The submission of the report seems to have been slightly delayed owing to the revision of the Statements IX and X attached to it. There is no objection to the omission of the distinction between European and Native prisoners in Statement IX in future reports, and the Inspector-General should be informed accordingly with reference to his remarks at the end of paragraph 46. It is hoped that the Superintendent of Stationery will duly submit for next year's report the figures required for column 12 F of the statement.

7. The various ways in which the convicts were employed do not call for special remark, but experiments are now being undertaken in the Yerrowda Central Prison with a view to introducing form printing for Government Departments. Some of the convicts from the Bijápur Prison continued to be employed on clearing away prickly-pear, for which no earnings are credited, and the sale of quinine packets from the Yerrowda Central Prison, which practically only paid expenses, was extended to Hyderabad. The total earnings of the convicts remained almost the same as in 1894, but it is observed that while the earnings from factory labour showed a marked improvement from Rs. 44,448 to Rs. 49,531, the earnings from extramural labour, including the construction and repair of prisons, fell from Rs. 42,995 to Rs. 37,083. The falling off in the earnings in certain prisons due to the completion of the Hyderabad and Ahmedabad Central Prisons was expected to have been met by increased earnings from the Sind and Deccan gangs, and was to a great extent so met in the case of the Sind gang, which showed a satisfactory increase of over Rs. 6,000 in earnings. The results of the work of the Deccan gang in Khándesh, however, were not so satisfactory, partly owing to heavy expenditure consequent on the removal of the gang to Khándesh, but mainly owing to matters in connection with the contract under which the gang was employed which are still under consideration. The greater part of the large sum of Rs. 6,000 still reported to be outstanding on account of their work is expected to be recovered, and if this amount is taken into consideration, the total earnings on account of extramural labour, including work on prison buildings, are in excess of the earnings for 1894.

8. The net financial results, as far as convicts and under-trial prisoners are concerned, as compared with those of the preceding year, are shown in the following table :—

	Total cost of maintenance.	Cost per head.	Cash earnings.	Earnings per head.	Net cost.	Net cost per head.
1895.	Rs. a.	Rs. a.	Rs. a.	Rs. a.	Rs. a.	Rs. a.
Prisons	4,79,086 0	67 6	86,614 1	12 3	3,92,471 15	55 3
Subordinate Jails ..	27,197 0	52 10	1,740 1	3 6	25,456 15	49 4
Lock-ups	32,150 0	50 15	...	...	32,150 0	50 15
Total ...	5,38,433 0	65 3	88,354 2	10 11	4,50,078 14	54 8

1894.	Total cost of maintenance.	Cost per head.	Cash earnings.	Earnings per head.	Net cost.	Net cost per head.
	Rs. a.	Rs. a.	Rs. a.	Rs. a.	Rs. a.	Rs. a.
Prisons	4,67,428 0	65 6	87,443 5	12 4	3,79,984 11	53 2
Subordinate Jails ...	21,987 0	63 12	1,111 10	3 4	20,875 6	60 8
Lock-ups	27,103 0	51 5	...	...	27,103 0	51 5
Total ...	5,16,518 0	64 6	88,554 15	11 1	4,27,963 1	53 5
Increase ...	21,915 0	0 13	...	...	22,115 13	1 3
Decrease ..	.....	...	200 13	0 6	.....	...

The table shows an increase of Rs. 1-3-0 in the net cost per head resulting from an increase in the gross cost and a decrease in the earnings.

9. The following table compares the health of convicts and under-trial prisoners during 1895 and the preceding year :—

	Central Prisons and Prisons.		Jails.		Lock-ups.		Total.	
	1894.	1895.	1894.	1895.	1894.	1895.	1894.	1895.
Total population	25,026	24,424	5,980	7,457	42,573	51,518	...	...
Daily average strength	7,149	7,112	345	517	528	631	8,022	8,260
Number admitted into hospital ...	5,995	7,267	313	418	270	311	6,578	7,996
Daily average sick	221·0	234·5	9·1	10·5	4·8	5·2	234·9	250·2
Number of deaths	238	229	8	3	12	12	258	244
Ratio per mille of deaths to total population	9·5	9·4	1·3	0·4	0·3	0·2	...	...
Do. do. to strength...	33·3	32·2	23·2	5·8	22·7	19·0	...	...
Do. do. to admission into hospital	39·7	31·5	25·6	7·2	44·4	38·6	...	...

Though the number of deaths decreased, the number of admissions into hospital and the daily average number of sick appear to have increased disproportionately to the increase in daily average strength. There was a marked increase in the number of cases of intermittent fever, but a general decrease of cases of respiratory diseases. There was a small outbreak of cholera in the Deccan gang, and the state of the health of the prisoners in the new Ahmedabad Central Prison, from which some cases of dysentery or diarrhœa appear to have been communicated also to Thána, is disappointing. The newness of the buildings and the weather conditions appear to have been contributing causes. Overcrowding in a large number of prisons was again unavoidable, but the matter has been receiving the careful attention of Government, and the question of increasing the accommodation at the Yerrowda Central Prison, with a view to securing permanent relief from overcrowding there and in other prisons, is now under consideration.

10. The number of civil prisoners confined during the year increased from 1,858 with an average daily strength of 117 to 2,034 with an average daily strength of 122. The total cost remained practically the same, but the average cost per head fell from Rs. 71-7-7 to Rs. 71-8-3. There was 1 death only as against 3 in the previous year.

11. The opening of the Ahmedabad Central Prison and the closing of several district prisons from the beginning of the year have been important changes, and the subject of introducing the cubicular system into the barracks and wards of prisons as may be feasible has been receiving consideration. The financial results of the year's administration have again been disappointing, and the health of the prisoners was not all that could be desired, but in other respects the working of the Department has been satisfactory.

12. Copies of the report and of this Resolution should be forwarded to the Government of India and the Secretary of State, and a copy should be placed on the Editor's table.

(Signed) M. H. W. HAYWARD,
Under Secretary to Government.
